

*The Global Leader in Tankless Technology*

## Point of Use - "Hybrid" Thermostatic

### Seisco Exclusives

- **"Buy American"** 100% compliant
- **Dry-Fire Protection** – cannot dry fire elements
- Temperature controlled flow detection for fast activation (at less than 0.30 GPM)
- No moving parts subject to early failure from effects of water exposure (e.g. flow switch, turbine flow meter)
- UL listed and tested to UL499 Appliance and more stringent UL834 Space Heating standard
- Control tested by UL to achieve "Recognized Component" as temperature limit control under the requirements of UL 353 and CSA C22.2
- Patented **Power-Sharing Technology**
  - Virtually eliminates scaling
  - Accurate microprocessor thermostatic temperature control
  - DESIGNED to avoid scalding
  - Saves energy activates only on demand
  - Works with low flow fixtures and energy saving appliances
  - Designed to work safely with all pre-heated water applications

### Built and Tested for Reliability

- Uses standard immersion water heater elements available everywhere
- Easily serviced without removing from the wall
- Self-diagnostics including leak detection shutdown
- Built with DuPont Engineering Polymers for strength and reduction of scaling potential

### Greater Customer Satisfaction

- Patented control avoids flicker and other power quality issues
- Fast start-up with consistent temperature output even as demand varies
- Nearly silent operation – Versatile installation options

### GO HYBRID!

Seisco Hybrid POU models are slightly larger than typical POU models for good reason. They provide a 1-quart mixing reservoir to avoid scalding and a ready supply of warm water for up to 2 hours after first use with no energy penalty. Can be safely connected to the hot water line to shorten the wait and save water.

Select the Hybrid POU that is guaranteed to outperform every other POU on the planet

*Find out why Zero Net Energy Home developers choose SEISCO Whole House Tankless and Why HUD chose Seisco for its Concept House – Visit [Seisco.com](http://Seisco.com)*

# POU "Hybrid" -Thermostatic

120V MODELS				Wire	Breaker	Temperature Rise @ GPM

10.5	208	POU140-240	15"	10	2	30	72	48	36

\* Maximum wire size is AWG #6. Use copper wire rated to 90°C for these applications

### Specifications:

Weight: 9 lbs. (4 kg)  
 Height: 7½" (190.5 mm)  
 Length (see chart):  
 13" (330.2 mm)  
 15" (381.0 mm)  
 Depth: 6½" (165.1 mm)  
 Fittings: ¾"NPT (½"NPT adapters incl.)  
 Power: 120-277V, 50/60Hz  
 Maximum Operating Pressure: 100 PSI  
 Thermal Efficiency: 96%+  
 Temp. Output: 105°F

### SUGGESTED WRITTEN SPECIFICATION

Seisco tankless water heater model \_\_\_\_\_ as manufactured by Seisco International, shall have a 5-year limited warranty\*. Heater shall have a rated input of \_\_\_\_\_ kW at \_\_\_\_\_ Volts. Heater shall be UL listed and tested to UL 499 Small Appliance standard and more stringent UL 834 Space Heating/Small Boiler standard and meet both NSF/ANSI 61 and 372. Electrical control of the heater must be accomplished using an integrated microprocessor that uses thermistors for sensing both temperature and flow. Heaters shall include water level sensing and temperature control via the microprocessor. Automatic high temperature shutoff shall be accomplished using its control tested by UL to meet the temperature limit control requirements of UL 353 and CSA C22.2. Heaters shall have built-in self-diagnostics with an LED and speaker and must visually and audibly signal the status of all monitored functions. Heaters shall have built-in water leak detection with automatic heating shutdown. Heater must have easy clean-out access for removing sediment. *\*Limited Warranty-See written warranty for details.*
